

MEMORY STONES | JOSHUA  
4:1-7

## Interconnectivity between Intrinsic Ganglia in the Human Heart

## Expanded view of the Intrinsic Cardiac Ganglion

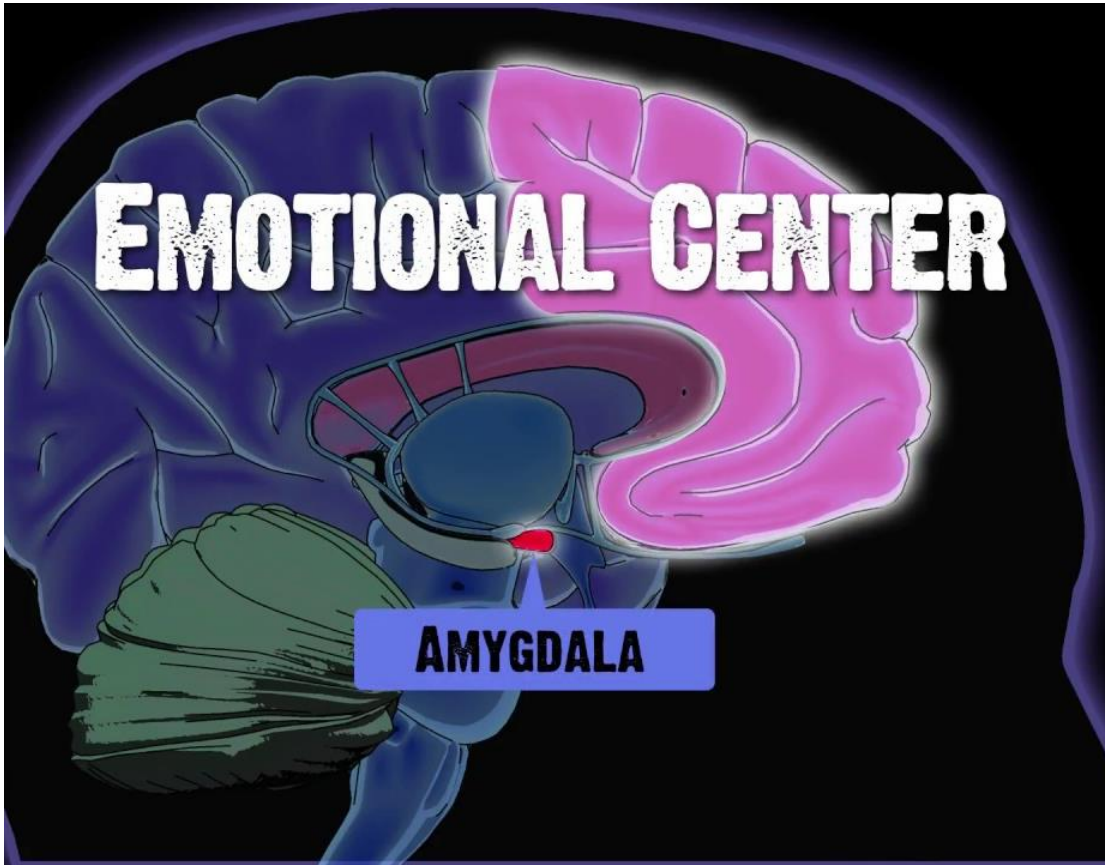

# THE HEART OF THE MATTER

- John and Beatrice Lacey  
Neurophysiologists (70's)

Studied the cardiovascular system and found that the heart has a brain. "The heart appeared to be sending meaningful messages to the brain that it not only understood, but also obeyed?"

- Andrew Armour (1990's)

The heart as a little brain with neurons, neurotransmitters, proteins, and cells similar to parts of the brain. The nervous system of the heart acts independently of the brain. Thus heart transplant recipient can function over period of time because of the hearts intrinsic nervous system.

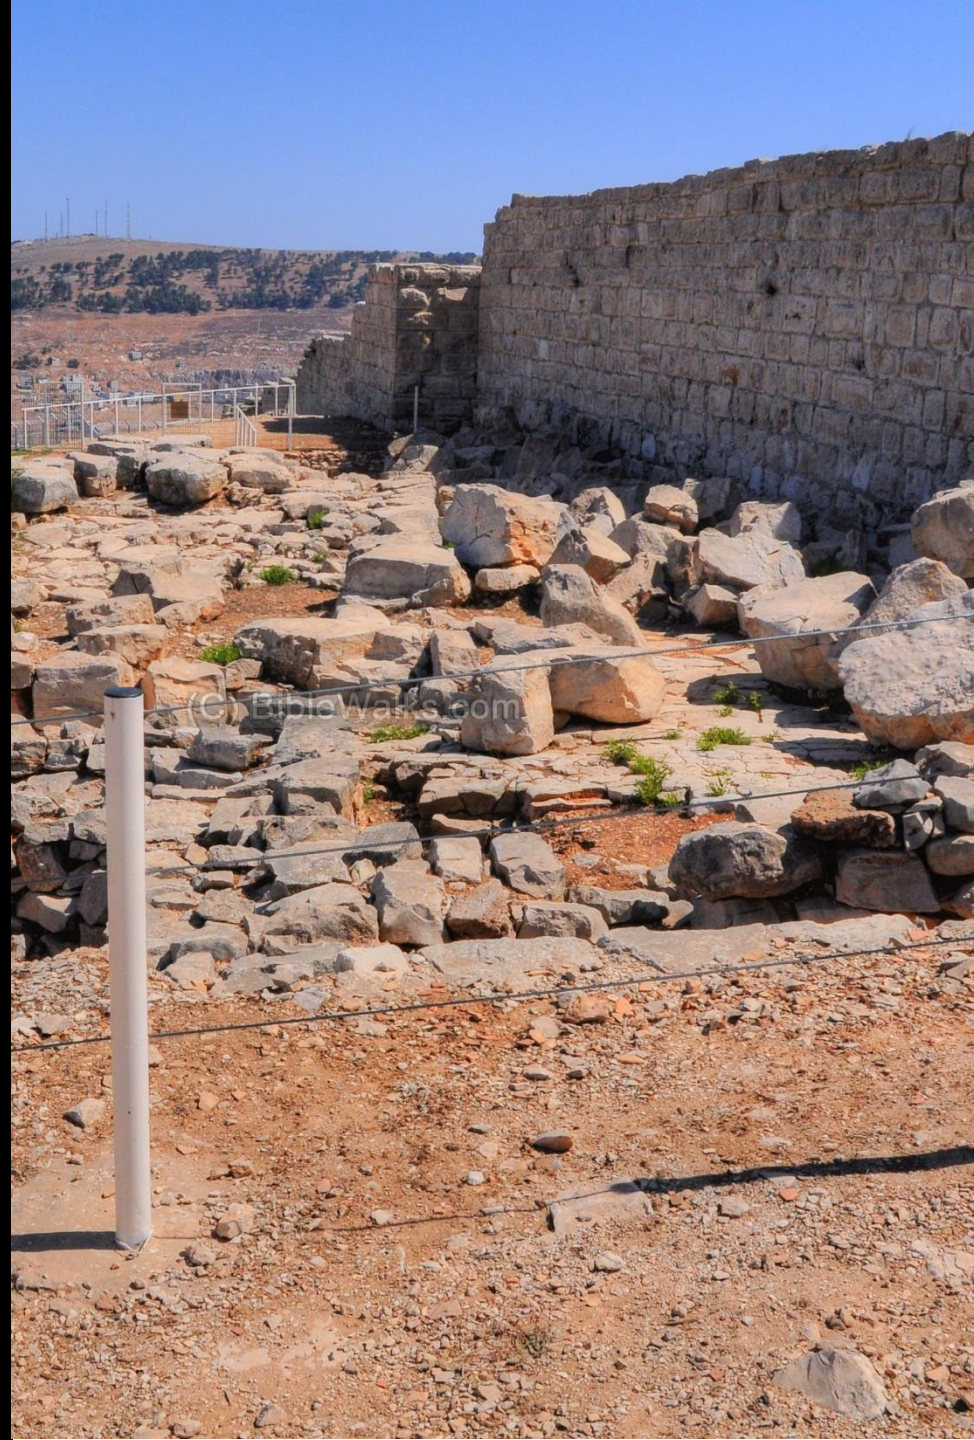

THE HEART OF THE  
MATTER

- **AMYGDALA**

Where we experience our emotions: it compares incoming emotional signals with stored emotional signals and makes an instantaneous decision to our emotion response; all triggered by way of both the heart and the brain's memory mechanisms

# LITERAL STONES

- **Gathered from the middle of the river**
  - Compares to the crossing of the Red Sea Josh. 3:7
- **Stacked where the people camped**
  - Visible, Tangible, speaking to the realness of God
- **Stacked in an unusual formation**
  - Reminder of how God works and of what He did
- **Still standing today**
  - Connects to past acts in order to provide future hope Josh. 4:21-22

LEGACY STONES |

1. God of Miracles: Malachi 3:6

## 2. God of Promises: Numbers 23:19

3. God of Possibilities: Matt. 19:26

4. God of Power: Joshua 4:23-24
